Management Applications	<p>1.The student will be to analyze the concepts related to Marketing, 4P's and case studies.</p> <p>2.The student can analyze different concepts of Production, its management and Productivity and discuss cases based on it.</p> <p>3.The student will be able to explain the concept of Human Resources Management, Human Resource Planning and Human Resource Development.</p> <p>4.The student will be able to explain the meaning, functions of Financial Management, Capital Budgeting, Capital Structure and Capital Market. Study the Fundamental and Technical analysis along with DEMAT account, Futures and Options.</p>

PROF. CA. KISHORE S. PESHORI

Cost Accounting-III	<p>1.The student will be able to evaluate the importance of uniform costing and know the difference between uniform costing and inter firm comparison.</p> <p>2.The student will be able to differentiate between integrated and non-integrated systems of accounting, differentiate between nominal ledger and other control accounts.</p> <p>3.The student will be able to identify various types of expenses which include fixed expenses, variable expenses and will be able to find out per unit cost, net operating cost of various services by transport, hotel, and hospital industries.</p> <p>4.The student will be able to apply knowledge about different types of losses and its treatment in the processing industry. Students will be able to identify the equivalent unit of production under different methods like FIFO, weighted average.</p> <p>5.The student will be able to analyze the difference between traditional based activity and activity-based costing. Students will be able to identify the cost drivers and its impact in identifying the cost of production.</p>
Taxation - IV Indirect Taxation II(GST)	<p>1.The student will be able to analyze the basics of Indirect taxation and study the conceptual framework under GST.</p> <p>2.The student will be able to apply knowledge of, Levy and Collection GST, Composite and Mixed Supplies under GST, Power to Grant Exemption, Negative list of GST, GST Rate Schedule for Goods and Services, concept of GST, CGST, SGST/UGST</p> <p>3.The student will be able to calculate the taxable value of Supply, according to place, time and value of goods and services.</p> <p>4.The student will analyze in depth knowledge about various documents which are required to be maintained by the supplier of goods and services under GST.</p> <p>5.The student will be able to compute Input tax credit and will be able to find out the taxable value under GST.</p> <p>6.The student will be able to analyze about the registration procedure, including cancellation and revocation of registration under GST</p>

T.Y.B.COM (Accounting & Finance) Semester-VI

Course Name	Course Outcome
Taxation-V Indirect Taxation - III	<p>1. The student will be able to apply various payment of tax, calculation of interest and refund procedure.</p> <p>2. The student will apply in-depth knowledge of filing returns under GST.</p> <p>3. The student will be able to apply various documentation and auditing procedures under GST.</p> <p>4. Learners will be able to calculate the custom duty, and acquire in-depth knowledge about various provisions under custom act.</p> <p>5. The student will be able to evaluate the import and export procedure and its implications in calculating custom duty.</p>

PROF. CA. KISHORE S. PESHORI

PRINCIPAL
SMT. MMK COLLEGE OF COM. & ECO.
BANDRA (WEST), MUMBAI - 400050

Cost Accounting IV	<ol style="list-style-type: none"> 1. The student will be able to identify the importance and role of budgets in an organization and preparation of various functional budgets. 2. The student can apply to identify the various features of Fixed and variable costs, the consequences of changes in them and understanding the concepts like Break-even point, margin of safety, etc. 3. The student is able to apply the concepts of CVP analysis to practical decision-making areas understanding the effect of key factors. 4. The student will be able to identify the importance of standards in the process of control and calculate deviations from standards through Overhead and Sales variances.
Financial Accounting VII	<ol style="list-style-type: none"> 1. The student will be able to prepare Final Accounts• Profit & Loss, Receipt & Expenditure, and General Balance sheet for Electricity Company as per Double Account System, Compute Disposal of surplus and Replacement of assets. 2. The student will be able to prepare final accounts of Co- Operative Housing Society & Consumer Co-Operative Society as per Maharashtra State Co-operative societies Act 3.. The student will be able to make journal entries and prepare Investment account for shares and debentures. considering Interest (ex and cum interest) and Dividend, Bonus shares, Right shares. 4. The student will be able to compute NAV of Mutual funds
Financial Management III	<ol style="list-style-type: none"> 1. The student will be able to analyze the concept of valuation-Book value, Market value, Economic value Replacement and Salvage value. To compute asset and earning based approach to valuation. 2. The student will be able to analyze the concept of mergers and acquisitions, its benefits and determine the exchange ratios 3. Student will be able to explain the meaning, importance forms of corporate restructuring and takeovers. 4. The student will be able to calculate Cash Flows from lease and hire purchase installments. 5. The student will be able to discuss key features of working capital financing, Factoring, calculating yield of Commercial Papers and Certificate of Deposits, Maximum Permissible Bank Finance.
Economics Paper III (Indian Economy)	<ol style="list-style-type: none"> 1. The Student will explain the Demographics of India ,Agriculture Sector, Land Reforms, Agriculture Finance and Marketing. 2. The learner will be able to recognise and explain the concept of Growth and pattern of industrialization 3. The student will be able to discuss the Industrial Policy of 1991. Public sector enterprises and disinvestment policy 4. The student can recognise Small scale sector- problems and prospects" 5. The learner will be able to analyze recent trends in Banking, Insurance, Healthcare and tourism industry. 6. The student will be able to Explore and Analyze the Money market, Capital market and SEBI Role and Policies.

PROGRAMME OUTCOME, PROGRAMME SPECIFIC OUTCOME & COURSE OUTCOME

PROF. CA. KISHORE S. PESHORI

PRINCIPAL

SMT. MMK COLLEGE OF COM. & ECO.
BANDRA (WEST), MUMBAI - 400050

(UNDERGRADUATE COURSES)

Programme Name: - B.COM (BANKING and INSURANCE)

Programme Outcomes:

PO1: After completing three years for B. Com Banking and Insurance program, students would gain a thorough grounding in the fundamentals of Banking, Insurance, Finance, Management and Commerce concepts.

P02: This programme provides graduates with technical, human, managerial and conceptual skills through training to become successful professionals in the modern financial sector.

P03: The aim of the course is to provide students with deep insights into the real world of banking and insurance through theory and practical sessions.

PROGRAMME SPECIFIC OUTCOMES:

PSO1: The course aims on imparting specific knowledge and skills that prepare learners for research and further studies in the field of BFSI (Banking, Financial services and Insurance) sector.

PS02: The course aims at bridging the gap between academia and industry.

PS03: The course focuses on specific subject related and transferable skills within the disciplines of commerce, business accounting, economics, finance, law, taxation, and management which are relevant for employment opportunities in the financial sector.

F.Y.B.COM (Banking and Insurance) Semester-I

Course Name	Course Outcome
Principles of Management	<ol style="list-style-type: none">1. The student will be able to describe various management theories and its importance in the business.2. The learner will be able to interpret the management process with suitable examples from the banking and insurance sector.3. The student can identify and list various types of organization structure in the banking and insurance sector.4. The student can describe and discuss examples of business leaders.
Environment Management of Financial Services	<ol style="list-style-type: none">1. The student can identify and recall new financial terminology.2. The student can define and recognize functions and working of banking and insurance companies.3. The student can define, summarize and give examples of different types of risks and risk management methods.4. The student can state banking and insurance regulations.
