NATURE CLUB REPORT 2007-08 TILL DATE 2022-23

This year **NATURE CLUB IS CELEBRATING FIFTEENTH YEAR** of its existence. Even though it's the initiative taken together by small group of students; it has made impactful effect on the mindset of students' community. On this occasion let us rewind our memories towards previous years' contributions of our dedicated past students'.

2007-2008	<i>Ecological Awareness-B.COM.</i>	Visit to Saguna Baug –Horticulture Plant
2008-2009	<i>Seminars –B.M.S.</i>	1) Seminar on Waste Management for BMS students dated: 20-02-2009. 2) TYBMS participated in the walkathon organized by SIES College of management studies. The idea was to support for the ban on smoking in public places.
2009-2010	<i>Ecological Awareness-B.COM.</i>	Plantation Drives
2010-2011	<i>Ceramic Design Studio called “KUPRKABI”-S.Y.B.COM.</i>	Women Empowerment Programme
2011-2012	<i>OASIS foundation-S.Y.B.COM.</i>	Making visuals and giving Tag lines from old news paper cutting-Awareness Drive
2012-2013	<i>OASIS foundation-S.Y.B.COM.</i>	1) Presentations at schools like Podar School & Petit Municipal Schools about Environment. 2) Event on “e-nough of e-waste”, a drama depiction of understanding dark side of bright technology, At Amphi theatre, Carter Road.
2013-2014	<i>OASIS foundation-S.Y.B.COM.</i>	1)TRASH TO TREASURE, where students go on field work, after orientation programmes, for the news paper drive. 2) Event at Marico Amphi theatre, Carter Road, on “BRING BACK BLISS” a drama depiction of real life exposure, whereby they learnt about future social challenges and responsibilities of life.
2014-2015	<i>GREEN DIARY PROJECT-S.Y.B.COM. & T.Y.B.COM.</i>	Excellent Craft work of Eco-friendly products Visited at Sanjay Gandhi National Park, Borivali
2015-2016	<i>Field Visit Programmes-B.B.I.</i>	Mysore Zoo and Vrindhavan Garden in Mysore City; Botanical Garden in Conoor and Lalbaug Garden in Bangalore City in order to create

		awareness towards different plant and tree varieties and also about different species of birds and animals.
2016-2017	<i>Field Visit Programmes - B.B.I.</i>	CHHARAPATI SHIVAJI MAHARAJ VASTU SANGRAHALAYA mainly to bring awareness towards ancient Indian culture and sensitize students towards our Rich Indian Cultural Heritage.
2017-2018	<i>Field Visit Programmes - B.B.I.</i>	Student's feelings of <i>Patriotism, Pride On Nation</i> was aimed by our memorable visit to <i>Jalianwala Baug & Wagha Border</i> on 26 th January 2018, Parade Day Programme had evoked Life skills of students.
2018-2019	Nature Trail programme- Nature Camp Visit	Developing Adventurous Attributes & Leadership Qualities by organizing one day NATURE TRAIL near Karjat & Khapoli during monsoon season.
2019-2020 2020-2021	<i>LOCK DOWN ACTIVITY DURING COVID 19</i>	We took different topics related to nature like; ➤ Tree Plantation ➤ Bird House ➤ Nature Photography ➤ Drawing Related to Natures ➤ Model of Rain Water Harvesting
2021-2022	<i>Awareness Programme</i>	Organized by conducting webinar on " <i>Home Garden</i> " for all classes College students on dated: 28th July 2021.
2022-2023	<i>Field Visit for TYBCOM</i>	NATURE TRAIL at Maharashtra Nature Park Society on 20 th August 2022 to observe & learn Natural Flowers, Bio-gas plants, Butterfly Garden and other species of insects in mother nature.

With the horizon of time our Nature -Club has changed the scope of work and broaden towards Community Welfare rather than just stick to Nature and Environment. It is all about development of holistic skills among students by creating awareness and sensitizes them towards different colors of life. All programmes designed and planned indicates current trends and moods of Students and community to inculcate and promote life skills of students. In future aiming towards enlarging multidisciplinary base of students across all programmes in our college as well as in other colleges by making it inter collegiate.

NATURE CLUB REPORT FOR THE YEAR 2017-2018

With the horizon of time our Nature -Club has changed the scope of work and broaden towards holistic skills among students by sensitizes them towards different colors of life. Hence this time under **Field Visit Programmes** with the BBI student's feelings of ***Patriotism, Pride On Nation*** was aimed by our memorable visit to Jalianwala Baug & Wagha Border on 26th January 2018.

In the entire visit we observed the emotional attachment and feelings of devotion towards Nation among students which can't be expressed in words. The entire **26th January 2018 Parade Day Programme** had evoked Life skills of students.

FEELING OF PETRIOTISM AT JALIANWALA BAUG

FLAG HOSTING AND REPUBLIC DAY PAREDE

WAGHA BORDER 26-JANUARY CELEBRATION

NATURE CLUB REPORT FOR THE YEAR 2018-2019

Along with the new horizon of time our Nature -Club has also changed and broaden its scope towards Community Welfare rather than just stick to Nature and Environment. Further it is all about development of holistic skills among students by creating awareness and sensitizes them towards different colors of life. Hence this time under **Field Visit Programmes** with the **BBI** student's our focus was on developing Adventurous Attributes & Leadership Qualities by organizing one day **NATURE TRAIL** near Karjat & Khapoli during monsoon season in August 2018. In this trail they observe & enjoyed Nature with beautiful Climate, Water fall and also learn the techniques of Mountain Tracking under the guidance of trained escorts.

Further during our stay also they got exposure of various **Adventurous Activities** like Zip Line, Rifle Shooting, Swing Crossing, Air crossing, Adventure Tower, Indoor & Outdoor Games etc.

In the entire visit we got wholehearted support from students and inculcated Refreshed Energetic Fun & Gaming Spirit among students. Thus in real sense it was **Nature Camp Visit!!!**

NATURE CLUB REPORT FOR THE YEAR 2019-2020 & 2020-21

(Covid 19 & lock down period)

During these hard times what the world is experiencing, it is easy to panic and get upset. Especially during the quarantine, when you feel isolated and very lonely. It may seem that your previous life would never return.

When the coronavirus spread, we were not worried at all. On the opposite, we wanted it to go on so that we would have longer holidays. We didn't realize that everything would be closed because of coronavirus and the holidays wouldn't be nearly as much fun as we expected.

The first week was fun, not many things were closed. But after a couple of days the virus spread to more people and everything got closed, so just sitting at home was getting boring. So, we found other ways to entertain ourselves. We the student of SYBBI had done an Activity Allotted by our Coordinator called **NATURE'S CLUB**.

We took different topics related to nature like

- Tree Plantation
- Bird House
- Nature Photography
- Drawing Related to Natures
- Model of Rain Water Harvesting

TREE PLANTATION: -

We choose tree plantation as it was the month of June-July, which is rainy season as everywhere was greenery so we few students formed a group for tree plantation where each one of us has planted variety of plant at our house.

BIRD HOUSE: -

We choose Bird house as in the month of Rainy season birds are tentative to get wet in the rain so they need shelter for themselves some birds build their own nest to protect them and their little ones from rain, but sometimes due to bad weather birds are not save so the group of students thought to build house to provide shelter, food and clear water for them.

NATURE's PHOTOGRAPHY: -

Rainy weather may slow down some wild life, but for most part the natural world continues to go about its regular business. This is the great time for nature's photography. Like capturing the water droplets in flower petal, butterflies taking shelter under leafes, sunset, cloudy weather and etc.

DRAWING RELATED TO NATURE: -

Nature is both all around us and deep within us. We are inseparable from nature - our bodies, lives and minds depend on the air we breathe and the food we eat. The earth sustains our very life force. Without the earth - without nature - what would we be? Artwork based on nature can take many forms and serve many purposes.

MODEL ON RAIN WATER HARVESTING:-

Rain Water harvesting is the act of collecting rainwater. The rainwater is stored for various kinds of use and can be filled into the ground water apart from water tank and other means of storage. Rainwater Harvesting is less cost. Helps in reducing the water bill. Decreases the demand for water. Reduces the need for imported water. The driving forces for considering rainwater harvesting as an option are because of the rapid increase in human population across the globe, the growing need for desalination plants, food security concerns and the fast depleting freshwater resources. One of our classmate have made a model on it.

NATURE CLUB REPORT FOR THE YEAR 2021-2022

Intercollegiate Nature Club Activity was organized by conducting webinar on “*Home Garden*” for all classes College students on dated: 28th July 2021. The session was well appreciated by all student and faculty members as it was providing realistic & beautiful approach towards conservation & protection of environment beginning at home. Many of our students implemented the same in their balcony & on terrace of their buildings.

NATURE CLUB REPORT FOR THE YEAR 2022-2023

Along with the new horizon of time our Nature -Club has also changed to the development of holistic skills among students by creating awareness and sensitizes them towards different colours of nature. Hence this time under Field Visit Programmes with around 60 B.COM. student's along with two other faculty members one-day NATURE TRAIL at MAHARASHTRA NATURE PARK SOCIETY near Bandra- Sion was organised on 20th August 2022.

In this trail they observe & enjoyed Natural Flowers, Bio-gas plants, Butterfly Garden and other spices of insects in mother nature with beautiful Climate and tasty snacks under the guidance of experienced guides.

Thus, in real sense it was Nature Camp Visit!!!
